

Sarah Johnson

Senior Software Engineer | Full Stack Developer

sarah.johnson@email.com | (555) 123-4567

 San Francisco, CA | [LinkedIn](#) | [GitHub](#)

Professional Summary

Experienced software engineer with 8+ years in full-stack development, specializing in React, Node.js, and cloud architecture. Proven track record of leading teams, optimizing system performance, and delivering scalable solutions for fintech and e-commerce platforms.

Technical Skills

Languages: JavaScript, TypeScript, Python, Java, SQL

Frontend: React, Vue.js, Angular, HTML5, CSS3, Sass

Backend: Node.js, Express, Django, Spring Boot

Databases: PostgreSQL, MongoDB, Redis, MySQL

Cloud & DevOps: AWS, Docker, Kubernetes, CI/CD, Terraform

Tools: Git, Jenkins, Jira, Figma, Postman

Professional Experience

Senior Software Engineer | *TechFlow Inc.* | 2020 - Present

- Led a team of 5 developers in rebuilding the company's core payment processing system, improving transaction speed by 40%
- Architected and implemented microservices infrastructure on AWS, reducing system downtime by 75%
- Mentored junior developers and established code review processes that improved code quality metrics by 30%
- Collaborated with product managers to define technical requirements for new features serving 2M+ users

Full Stack Developer | *StartupX* | 2018 - 2020

- Developed and maintained React-based web applications with Node.js backends
- Implemented automated testing strategies, achieving 90% code coverage
- Optimized database queries and API endpoints, reducing average response time by 50%
- Built responsive user interfaces following accessibility guidelines (WCAG 2.1)

Software Developer | *Digital Solutions Ltd.* | 2016 - 2018

- Created RESTful APIs using Express.js and integrated with third-party services
- Developed data visualization dashboards using D3.js and Chart.js
- Participated in agile development processes and sprint planning
- Contributed to open-source projects and internal tool development

Education

Bachelor of Science in Computer Science | *University of California, Berkeley* | 2012 - 2016

- **Relevant Coursework:** Data Structures, Algorithms, Database Systems, Web Development
 - **GPA:** 3.8/4.0
-

Certifications

- **AWS Certified Solutions Architect** (2022)
 - **Certified Kubernetes Administrator** (2021)
 - **Google Cloud Professional Developer** (2020)
-

Notable Projects

E-commerce Platform Redesign

Spearheaded the complete redesign of an e-commerce platform serving 500K+ monthly users. Implemented modern React architecture with TypeScript, resulting in 60% faster page load times and 25% increase in conversion rates.

Real-time Analytics Dashboard

Built a real-time analytics dashboard using React, D3.js, and WebSocket connections. Enabled stakeholders to monitor key business metrics with live updates, improving decision-making speed by 40%.

Open Source Contribution - React Component Library

Contributed to a popular React component library with over 10K GitHub stars. Developed accessible components following WAI-ARIA guidelines and comprehensive documentation.

Awards & Recognition

- **Employee of the Year** - TechFlow Inc. (2023)
- **Innovation Award** - StartupX Internal Hackathon (2019)
- **Dean's List** - UC Berkeley (2014-2016)
